

Mito

Mito

This luxurious flatwoven quality belongs to our Comfort Collection. A collection that consists only of soft, voluminous and elegant upholstery textiles.

Mito has been woven on an air jet loom. Our product development team wanted to develop a rough structured textile, which is durable, strong and suitable for all types of upholstery, we found an answer on these points with our textile Mito.

After the greiges have been woven, Mito is dyed twice to have this multi-coloured aspect. It has also been laminated with a light non-woven backing. In other words: a heavy and thick toplayer! To create even more volume and thickness, a special finish with a little alkali has been done to give more body to this upholstery fabric.

A CO (carbon free) treatment has been done also, to make it easy to clean and maintain (only with water and a damp cloth).

We expect that you are just as excited as we are about these modern, deep, soft and modern colours, which are available from stock.

Last but not least, it is machine-washable at 30 degrees Celsius*.

- Dirt and damp prevention treatment applied.
- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.
- Please note that during washing the damp- and dirt prevented treatment will disappear faster.

***Textafoam originals** Established in 1970, this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer's needs every time. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.*
