

# Magnum

# Magnum

Magnum is a magnificent addition to our skins collection. The Textaafoam Skins Collection includes the best leather alternatives.

Tough and soft, with a matte and vivid natural look. Those are a few key words describing this upholstery fabric Magnum. We are proud to present this commercially strong and promising new item, based on the latest interior fashion trends and years of experience.

Magnum is constructed from 100% virgin polyester woven suede, laminated with a heavy grade fleece backing. Finished and printed in such a way that the look and feel is just like real leather.

We have achieved a solid appearance, also by selecting mainly true to nature colours. Easy to clean and maintain, due to its dirt- and damp prevented treatment so when a stain appears, simply rub gently with a damp cloth.

Kindly note that during daily use, a slightly dull or used aspect will become visible, this has no further influence on the durability of this fabric.

Magnum is also machine-washable at 30 degrees Celsius\*.

- Dirt and damp prevention treatment applied.
- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.
- Please note that during washing the damp- and dirt prevented treatment will disappear faster.

***Textaafoam originals** Established in 1970, this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer's needs every time. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.*
