Attraction

This fine woven upholstery fabric is in the Textaafoam Comfort Collection, this collection consists only of soft and elegant upholstery fabrics.

Attraction has been developed to offer you the ultimate answer to fine structures, elegant look and tonne-sur-tonne appearance. This high-quality upholstery textile will certainly enhance your sofa, chair, or relax-chair.

A matte and natural appearance, woven with different polyester yarns, therefor easy in usage and cleaning/ maintenance. Attraction is suitable for all types of upholstery, especially loose-fitting upholstery.

Due to the construction of this matte and authentic textile your sofa, chair and bed will get a boost in look & feel. A light coating has been added to provide extra stability, without compromising the fabric's comfortable handfeel.

Our quality team recommends a minimum seam allowance of minimum 1 cm, and another advice is to overlock all seams for more stability, especially with tight upholstered furniture.

For loose fitted upholstery models, please know that this fine textile is machine-washable at 30 degrees Celsius*.

When Attraction has been upholstered on fitted or buttoned furniture, please note the following:
- If a stain appears, first remove it carefully using a spoon or another blunt object.
- Then, take a cotton towel, dampen it with lukewarm water, wring it out, and place it directly over the stain.
- Leave the towel on the stain for 24 to 48 hours to allow it to absorb the stain.
- Important: Never rub the fabric or stain, as this may remove the dye and cause white or light spots, especially on darker colours.

Attraction is piece dyed, resulting in a wide range of new, natural, trendy, and modern colours that blend effortlessly into any interior.

Due to the chenille yarns, shading, seat depression or sitting mirror will appear. These product related properties can be minimized by brushing against the pile with a (clean) brush, or with a vacuum cleaner (low power and with an upholstery nozzle).

- Always be careful with sharp or rough objects such as watches, buckles or Velcro, as they may damage the fabric.

- Please consult the washing instructions of your furniture or covers before cleaning.

- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.

Textaafoam originals *Established in 1970, this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer's needs every time. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.*
